

# SUNIL DEVRAM TARGE

## SENIOR IOS ENGINEER

13+ years of experience developing apps in both Swift/Objective-C with UIKit/SwiftUI framework using seamless back-end integration and reaching high performance that meets all customer needs.

New Taipei City, Taiwan    [suniltarge@gmail.com](mailto:suniltarge@gmail.com)     +886 928990030.    <https://suniltarge.com>

## Work Experience

### Senior iOS Engineer • DOWN INC

<https://www.downapp.com/>

- Lead iOS developer in designing and implementing features for [DOWN iOS app](#) to the 16+ million users worldwide.
- Architect and develop a reusable and scalable codebase in the latest Swift language with SwiftUI framework, resulting in a 15% decrease in development time.
- Spearhead performance optimization initiatives, resulting in a 30% improvement in app loading time and enhanced user experience.
- Conducting code reviews and providing guidance on best practices to improve overall code quality.
- Since I joined the DOWN iOS App team, the company has experienced a remarkable 60% year-over-year (YoY) net revenue increase, demonstrating the impact of my contributions as a senior iOS engineer.

November 2021 - Present

### Senior iOS Engineer • EMQ INC

<https://emq.com>, <https://emqsend.com>

- I was responsible for the development and maintenance of a highly growing international remittance service app, EMQ SEND.
- Collaborate with cross-functional teams including designers and backend developers to ensure seamless integration of front-end and back-end components.
- My role involves consistently working on enhancing and improving the app's functionality, user experience, and overall performance in architecture based on MVVM with both UIKit and SwiftUI.
- Actively participate in technology discussions and contribute to the company's technical roadmap.

September 2018 - October 2021

### Senior iOS Engineer • QNAP SYSTEM INC

<https://www.qnap.com/en/>

- Implementation, design, and development of QNAP NAS iOS apps, and ensuring seamless data flow between the app and server.
- Used sketches scenarios flow, and prototypes to ensure that all business and design objectives were met.
- Additionally, I conduct thorough testing and debugging to identify and resolve any issues or bugs that may arise during the development process.

September 2015 - September 2018

### iOS Developer • THERAPY BOX LTD

<https://therapy-box.co.uk/>

- Developed iPhone and iPad app codebases, and manage the release process for the App Store.
- Collaborated with the design team to create visually appealing and user-friendly interfaces
- Implementation of new features and ensuring that coding functional elements are finished by the deadline.

November 2014 - August 2015

## iOS Developer • WINJIT TECHNOLOGIES PVT. LTD

<https://winjit.com/>

- Design, develop, program, and deploy IOS applications with Xcode using IOS SDK.
- Implemented core functionalities and integrated RESTful APIs in mobile apps.
- R&D on iOS development and enhancement of existing mobile apps.

June 2011 - October 2014

## Worked on AI-Driven apps as a hobby projects

Built 3 iOS apps powered by AI, leveraging models like GPT-4o, Minimax and platforms like Replicate.

Projects include:

- [Voicely - AI Voice Generator](#)
- [Cakegram - Personalized Cake Generator](#)
- [morphiq - AI Image fusion from multiple references](#)

All apps are live and showcase real-world AI integration and UX design

2025

## Education

2010 - 2011

**C-DAC ACTS (Advanced Computing)**  
Post Graduation

2007 - 2010

**Pune University**  
B.Sc. Computer Science

## Skills

---

- iOS, macOS
- Objective-C, Swift
- UIKit, SwiftUI
- Git
- Firebase, Amplitude
- Xcode Cloud

## Languages

---

- English – Professional
- Marathi – Native or Bilingual
- Hindi – Professional
- Chinese – Beginner
